

OPE & Hallett Canvas are pleased to offer the new  
**Lifeline Solar Installation Kit**

*"There when you need it most!"*

- Sized to fit your lifelines and stanchions
- Optional inboard backrest/seat cushion
- Fully adjustable for best solar harvesting angle
- Available for both the AIO (All In One) and standard Solbian panels
- Most efficient panels on the market
- Simple wiring options:
  - AIO direct to 12v socket (has built in controller)
  - Standard panel has waterproof connectors wired to interior MPPT controller for 3-stage charging
- Stow-able on the life line in vertical position
- Removable for stowing in rough weather
- All stainless hardware
- Avoids most shading issues from rig

Available for ALL SP panels and all  
"narrow" (14in) SR & SXp panels

**PRICE: Cost of panel + \$500 for  
mounting kit**
