

POD 600 Specifications

Hydrogenerator	Nominal power 600 W
Converter	Max output power 600 W 12 Vcc or 24 Vcc autodetected 48 Vcc in option Input for solar panel 8-50 Vcc / 14 Amps
Aluminium leg	100 mm
Propeller	240 mm
Other accessories supplied	1 ON/OFF relay with swerved connection to the navigation desk 1 bag with connectors 2 pre-assembled plugs and their cables 2 fastening rods 2 rubber soles 1 stainless steel back plate inside

Technical characteristics

Output at 5 knots	10 Amps in 12 Vcc (120 W) with the 240 mm propeller
Maximum using speed	15 knots with the 240 mm propeller
Compatible batteries	Lead battery Lithium Other : contact us

Dimensions and weight

Hydrogenerator	5 kg
Converter	1,5 kg
Three-phases cable	length 5 meters
2 pre-assembled plugs with their cable	1 meter length
